Liike by Durkan

Inspired by ink-washed paintings' ability to captivate the viewer with its impulsive and fluid nature, the Liike is a collection of works of art that provide unpredictable results as the process cannot be controlled with precision. Paint bleeds and disperses through opposing colors, creating waves and sculpted forms, with overlays of classic lace drape and contour, drifting and rippling across the surface. Liike is on display at HD Expo using Definity™, Durkan's exclusive manufacturing technology which surpasses traditional luxury carpet by offering incredible multi-level textures, more than twice the definition, superior performance and unmatched sustainability, as well as the same level of customization found with Axminster. All of the nuances of translating ink patterning into carpet are made possible in this collection through the technological advances and multi-level cut and loop capabilities of Definity.

About Durkan

From the hotel lobby and corridors to guest rooms and ballrooms, casinos and areas of assisted living facilities, Durkan is the world-renowned as an industry leader in innovative design solutions and high-style, high-performance hospitality flooring solutions. Durkan's products are offered in a wide range of exclusive innovative pattern and texture technologies, including Definity™, an advanced generation precision sculpturing technology that produces the highest definition of texture, pattern and color available in hospitality carpet; and Synthesis™, which provides a three dimensional layering effect using a custom base and Precision Dye Injected (PDI) surface that enables unprecedented image quality. Durkan is the hospitality brand of the Mohawk Group, a leading commercial carpet manufacturer and a pioneer in the design of sustainable carpeting.
