**Xenia by Durkan**

Designed by Virginia Langley for Durkan, Xenia is a timeless interpretation of a journey of dimensional and textural art forms. Xenia fuses organic and industrial styles and tonal treatments by forming a convergence of immersive concrete surfaces, century old woods, free-flowing images and botanicals into modern designs. Rediscovering treasures of the old worlds and embracing a contemporary sophisticated warmth, Xenia is a stylized confluence of technology and artistic poetry. Xenia is on display at HD Expo in both Definity™ and Synthesis constructions™. Durkan's Definity surpasses traditional luxury carpet by offering incredible multi-level textures, more than twice the definition, superior performance and unmatched sustainability, as well as the same level of customization found with Axminster. Synthesis layers pattern and texture to provide unprecedented 3D image quality and clarity. Never before has this combination of patterning and textural effect been achieved in hospitality flooring. The result is a unique layering effect that brings tremendous depth and richness to carpet design.
